

Novoguard Secured By Design Garage Doors

Heavy duty strengthening ribs

To meet the exacting standards we have increased the number of door braces at the rear of the door

Reverse of door showing strengthening ribs, 3 point locking and heavy duty springs

Secure locking brackets

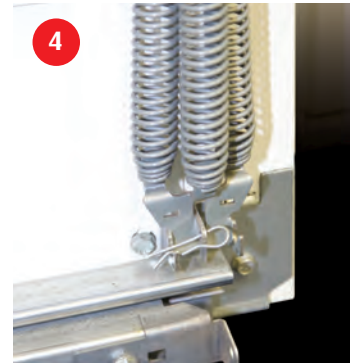

3-point solid bar locking fully supported across the width of the door

Inside locking handle

The reinforced locking barrel includes a key for locking and unlocking from the inside of your garage. The door is fully operational from both inside and outside of your garage

Heavy duty springs

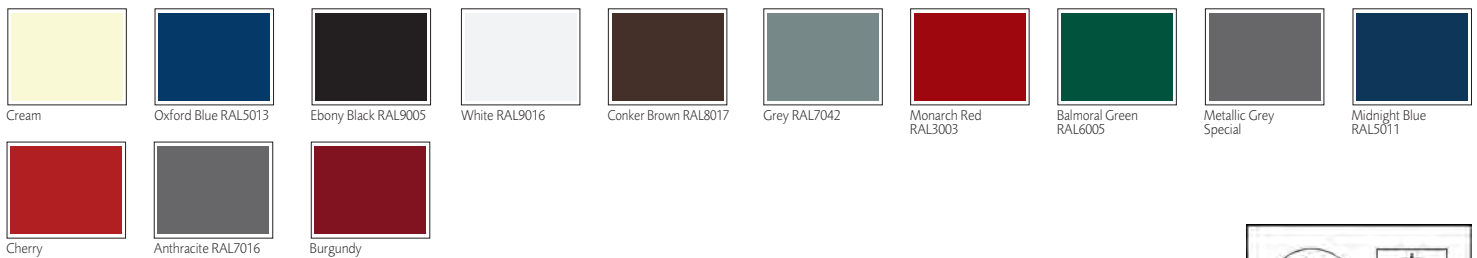

Multi springing ensures smooth operation of the reinforced door

Novoguard Secured by Design Doors are available up to 2438mm wide x 2134mm high.

Available with matching coloured steel frames and retractable lifting gear.

Colour finishes
